

CCSC Executives Present at Annual Conference

David Goodman and Frank Esposito, who founded and operate Companion Connection Senior Care, returned this week from the 2009 National Private Duty Home Care Leadership Summit in Phoenix, which was attended by an estimated 1,000 home care professionals. David and Frank, who were on the faculty at the summit, presented a workshop on “How to Start a Live-in Service.”

“The response to our presentation was extremely positive,” said Goodman. “This is obviously an area that continues to grow despite a troubled economy, and people in the field were very interested to hear more on a subject that is close to our heart, between what we have done at Companion Connection Senior Care since 2004, and at our New Jersey agency, Expert Home Care, for nearly a quarter of a century.”
